

# GEDDES POLICE DEPARTMENT GENERAL ORDER

No. 214

<b>Subject:</b> Use of Deadly Physical Force		
<b>Issuing Authority:</b> Chief of Police	<b>Effective Date:</b> 10/10/2020	<b>Supercedes:</b> 10/02/2019

- I. **PURPOSE:** The purpose of this order is to establish policy and guidelines governing the use of deadly physical force by sworn officers of the Town of Geddes Police Department and to establish procedures for reporting, investigating and evaluating the use of such force. Sworn members should make every effort to adhere to the sanctity of life, valuing and preserving human life in all situations when possible.
- II. **POLICY:** It is the policy of the Town of Geddes Police Department to prevent the unnecessary loss of human life. Officers may use deadly physical force only when the use of deadly physical force is necessary to:
  - A. Prevent or terminate deadly physical force from being used against the officer or a third person, pursuant to Article 35 of the New York State Penal Law.
  - B. Effect the arrest, or to prevent the escape from custody of a person whom the officer reasonably believes to have committed an offense, and the use of deadly physical force is necessary to defend the officer or another person from what the officer reasonably believes to be the use or imminent use of deadly physical force by the offender.
  - C. It is the responsibility of each officer to be aware of the requirements of Article 35 of the New York State Penal Law and the standard of objective reasonableness, established by the United States Supreme Court in *Graham v. Connor* to guide his actions based upon that law, department policy and training. As the Supreme Court has recognized, this inquiry embodies “allowance for the fact that police officers are often forced to make split-second judgments in circumstances that are tense, uncertain, and rapidly evolving about the amount of force that is necessary in a particular situation.”
  - D. This policy is written in recognition of the value of all human life and dignity without prejudice to anyone. Vesting officers with the authority to use reasonable force and to protect the public welfare requires a careful balancing of all interests.[Added:10/10/2020]
  - E. The primary consideration in the employment of deadly physical force is justification. The fact that a police officer is justified in using deadly physical force does not allow reckless conduct by the police officer if the use of deadly physical force may injure innocent persons whom he is not seeking to arrest or retain in custody.
  - F. The discharge of a firearm will always be considered to be the use of deadly physical force, unless the projectile is an impact munition deployed from a dedicated platform.
  - G. Deadly physical force can be expanded to include the use of non-lethal weapons and force if the intent is to cause serious physical injury. This shall include, but is not limited to impact weapons, chemical agents, flashlights, motor vehicles and bare hands.
  - H. Only issued or approved firearms or impact weapons will be carried on duty and used when encountering resistance, except in extreme emergency situations when an officer may use any justifiable resource at his disposal.

**III. DEFINITIONS:**

- A. SERIOUS PHYSICAL INJURY** -Physical injury which creates a substantial risk of death, or which causes death or serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ. [Revised: 10/10/2020].
- B. PHYSICAL INJURY** - Impairment of physical condition or substantial pain.
- C. DEADLY PHYSICAL FORCE** - Physical force which, under the circumstances in which it is used, is readily capable of producing death or other serious physical/bodily injury.
- D. REASONABLE BELIEF** - Those facts **AND** circumstances within the knowledge of the individual which would make a reasonable and prudent person tend to believe that the facts and circumstances are true.
- E. OBJECTIVELY REASONABLE** - An objective standard used to judge an officer's actions. Under this standard, a particular application of force must be judged through the perspective of a reasonable officer facing the same set of circumstances, without the benefit of 20/20 hindsight, and be based on the totality of the facts that are known to that officer at the time that the force was used.
- F. ACTIVELY POINTING** - The intentional targeting of a person with a Conducted Energy Weapon (CEW), firearm, impact weapon, impact projectile or chemical agent.

**IV. USE OF FORCE [Added:10/10/2020]**

- A.** In general terms, force is authorized to be used when reasonably believed to be necessary to effect a lawful arrest or detention, prevent the escape of a person from custody, or in defense of one's self or another.
- B.** Under the 4th Amendment, a police officer may use only such force as is "objectively reasonable" under the circumstances. The reasonableness of a particular use of force must be judged from the perspective of a reasonable officer on the scene.

**V. DETERMINING THE OBJECTIVE REASONABLENESS OF FORCE**

- A.** When used, force should be only that which is objectively reasonable given the circumstances perceived by the officer at the time of the event.
- B.** Factors that may be used in determining the reasonableness of force include, but are not limited to:
  - 1. The severity of the crime or circumstances.
  - 2. The level and immediacy of threat or resistance posed by the suspect.
  - 3. The potential for the injury to citizens, officers and suspects.
  - 4. The risk or attempt of the suspect to escape.
  - 5. The knowledge, training and experience of the officer

6. Officer/subject considerations such as age, size, relative strength, skill level, injury or exhaustion and the number of officers or subjects.
7. Other environmental conditions or exigent circumstances.

#### **VI. DUTY TO INTERVENE**

- A. Any officer present and observing another officer using force that he/she reasonably believes to be clearly beyond that which is objectively reasonable under the circumstances shall intercede to prevent the use of unreasonable force, if and when the officer has a realistic opportunity to prevent harm.
- B. An officer who observes another officer use force that exceeds the degree of force as described in subdivision A of this section should promptly report these observations to a supervisor.

#### **VII. USE OF DEADLY PHYSICAL FORCE**

- A. Deadly physical force may be used by an officer to protect themselves or another person from what the officer reasonably believes is an imminent threat of serious physical injury or death.<sup>16</sup>
- B. Deadly physical force may be used to stop a fleeing suspect where:
  1. The officer has probable cause to believe the suspect has committed a felony involving the infliction or threat of serious physical injury or death; and,
  2. The officer reasonably believes that the suspect poses an imminent threat of serious physical injury to the officer or to others.
  3. Where feasible, some warning should be given prior to the use of deadly physical force.
- C. Chokeholds and Obstruction of Breathing or Blood Circulation
  1. Any application of pressure to the throat, windpipe, neck, or blocking the mouth or nose of a person in a manner that may hinder breathing, reduce intake of air or obstruct blood circulation, is prohibited unless deadly physical force is authorized.

#### **VIII. PROHIBITED USES OF FORCE**

- A. Force shall not be used by an officer for the following reasons:
  1. To extract an item from the anus or vagina of a subject without a warrant, except where exigent circumstances are present;
  2. To coerce a confession from a subject in custody;
  3. To obtain blood, saliva, urine, or other bodily fluid or cells, from an individual for the purposes of scientific testing in lieu of a court order where required;
  4. Against persons who are handcuffed or restrained unless it is used to prevent injury, escape, or otherwise overcome active or passive resistance posed by the subject.

**IX. DRAWING AND DISPLAYING WEAPONS**

- A.** The drawing or displaying of an officer's weapon represents escalation toward the use of deadly physical force, increasing the risk of accidental discharge or weapon loss, and may contribute to fear or panic. Officers are justified in removing firearms from holsters and/or gun mounts if:
1. The member reasonably believes that the situation poses or may pose an immediate threat of death or serious physical injury to the officer or another person; and/or.
  2. There is justification to use deadly physical force against a person.
- B. WARNING SHOTS** - Warning shots are prohibited under any circumstances.
- C. MOVING VEHICLES** - Discharging a firearm at a moving vehicle is prohibited unless the officer reasonably believes that the occupants of the vehicle are using or about to use deadly physical force against the officer or another person and all other options have been exhausted. Officers should note that a motor vehicle presents a formidable shield against most firearms and if the officer disables the operator the vehicle can be expected to continue uncontrolled creating a hazard to officers and the public.
- D. ANIMALS** - Officers are justified in discharging firearms to destroy an animal for self-defense, to prevent substantial harm to the officer or another or when the animal is so badly injured that humanity requires its relief from further suffering. The watch supervisor shall be notified as soon as practical whenever a firearm is discharged to destroy an animal.
- E. JUVENILES** - No distinction shall be made relative to the age of the intended target of deadly physical force. Self-defense and imminent threat shall be the only procedural guidelines for employing deadly physical force
- F. FLEEING FELONS** - Officers may use deadly physical force against fleeing felons only when the use of deadly physical force is necessary to effect the arrest or to prevent the escape from custody a person whom the officer reasonably believes to have committed an offense listed in Article 35 of the New York State Penal Law and the use of deadly physical force is necessary to defend the officer or another person from what the officer reasonably believes to be the use or imminent use of deadly physical force by the offender.
- G. RISK TO INNOCENT PERSONS** - Officers are prohibited from discharging firearms when it appears likely that an innocent person in the immediate line of fire may be injured.

**X. REPORTING & REVIEWING THE USE OF FORCE**

- A.** Officers involved in the use of deadly physical force, on or off-duty, shall immediately notify the watch supervisor or Duty Chief in his absence after notifications to a 911 Center have been made. This requirement shall apply to all firearms discharges except for the following instances:
1. Authorized training

2. Target practice

  4. Incidents where a conducted energy device (CEW) was intentionally discharged or accidentally discharged after being displayed.
  5. Incidents where a firearm was discharged at a subject.
  6. A standardized use of force form should be used to document any reportable use of force incident.
  7. Officers should document any requests for necessary medical or mental health treatment as well as efforts of police to arrange for such treatment.
- C.** A police or peace officer or other law enforcement entity who has custody of a person must provide attention to the medical and mental health needs of a person in their custody and obtain assistance and treatment of such needs, which are reasonable and provided in good faith. Officers involved in the use of deadly physical force, on or off-duty, shall immediately notify the watch supervisor or Duty Chief in his absence after notifications to a 911 Center have been made. This requirement shall apply to all firearms discharges except for the following instances:
1. This includes appropriate and timely medical attention being provided to a party injured as a result of a use of force incident.
